

In Jinočany, 16.7.2026

Supplier:

Bropack solution s.r.o.
Mezi Stromy 497
252 25 Jinočany, Česká republika

Product name: PE packaging materials, ANTICOfol® – LDPE/HDPE, including VCI films, bags, sacks and sheets made from them

1. Statement of Chemical Compliance (SoC)

We hereby confirm that the supplied packaging complies with the applicable legislation of the European Union. All relevant substances contained in the packaging and its components have been identified, and the products do not contain any substances prohibited under applicable EU legislation.

2. Declaration according to PPWR – Article 5

We hereby confirm that the packaging complies with the requirements of the Packaging and Packaging Waste Regulation (PPWR), in particular with regard to:

- heavy metal concentration limits,
- restrictions on hazardous substances, including PFAS where applicable,
- other requirements set out in Article 5 of the PPWR.

3. Material Composition and Recyclability

The packaging is **100% recyclable** within polyethylene (PE) recycling systems.

Material: Polyethylene PE 95-100% a additives 0-5%

Recycled content: 5-100%

Recyclability class: Class A (according to PPWR)

4. Documentation and Compliance

We undertake to:

- maintain documentation demonstrating the above compliance,
- provide such documentation to customers or competent authorities upon request,
- promptly inform customers of any changes that may affect the compliance of the packaging
