Mezi Stromy 497
252 25 Jinočany, Česká republika

Product name: Sulphate Paper – MULTIferro® 50, 70, 90, K120 and CU90**1. Statement of Chemical Compliance (SoC)**

We hereby confirm that the supplied packaging complies with the applicable legislation of the European Union. All relevant substances contained in the packaging and its components have been identified, and the products do not contain any substances prohibited under current EU legislation.

2. PPWR Declaration – Article 5

We hereby confirm that the packaging complies with the requirements of the Packaging and Packaging Waste Regulation (PPWR), in particular with regard to:

- Heavy metal concentration limits
- Requirements concerning the restriction of hazardous substances, including PFAS (where applicable)
- Other requirements set out in Article 5 of the PPWR

3. Material Composition and Recyclability

The packaging is **100% recyclable**.

Material:	Sulphate paper
Recycled content:	30-70% binders and additives 5-10%
Recyclability class:	B (according to PPWR)

4. Documentation and Audit

We undertake to:

- maintain documentation demonstrating the above compliance,
- provide such documentation to customers or competent authorities upon request,
- promptly inform customers of any changes that may affect the compliance of the packaging.

Ing. Miroslav Brožíček
Managing Director
